"The true light that gives light to everyone was coming into the world. He was in the world, and though the world was made through him, the world did not recognize him. He came to that which was his own, but his own did not receive him. Yet to all who did receive him, to those who believed in his name, he gave the right to become children of God— children born not of natural descent, nor of human decision or a husband’s will, but born of God."
The Holy Bible

Notes:

- *I am a citizen of the world, there would not be any better way to describe my roots. I first moved to the US when I was a year old. Four years later, the family moved to Costa Rica. At ten, when we finally moved to Brasilia, I realized I'd have to face an extra-challenge: learning to be part of a community. It was the first time that I would be living somewhere for more than 4 years.*
While the vast majority of people grows roots somewhere, that definitely doesn't apply to me. Maybe that is the reason I have been looking for my ancestors for so long - it would really make me happy if I found FAMILY .

9. FAMILY TREES

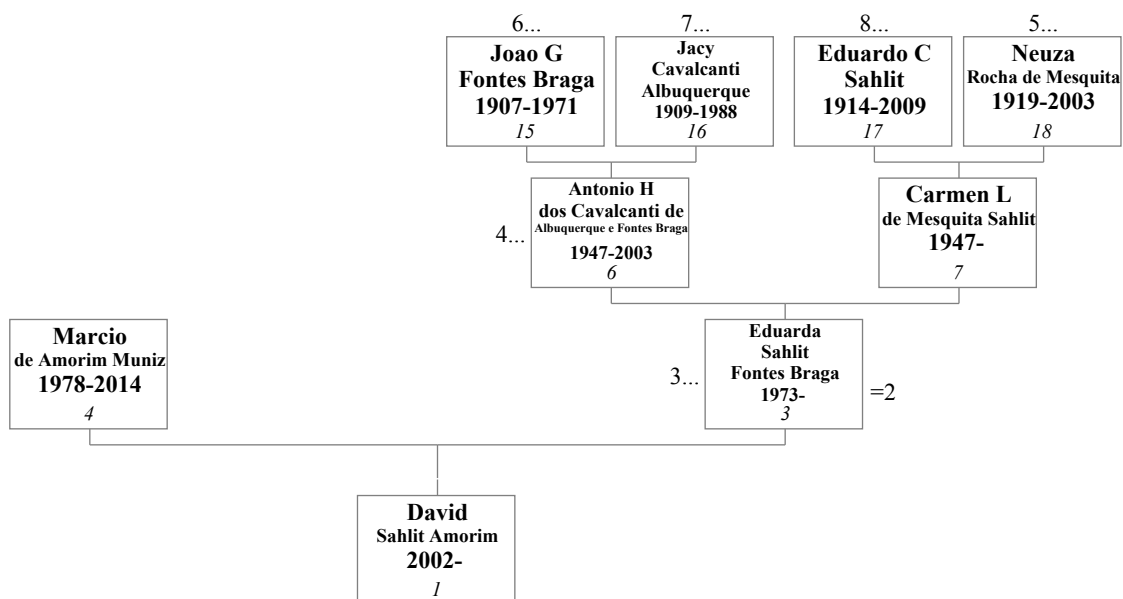

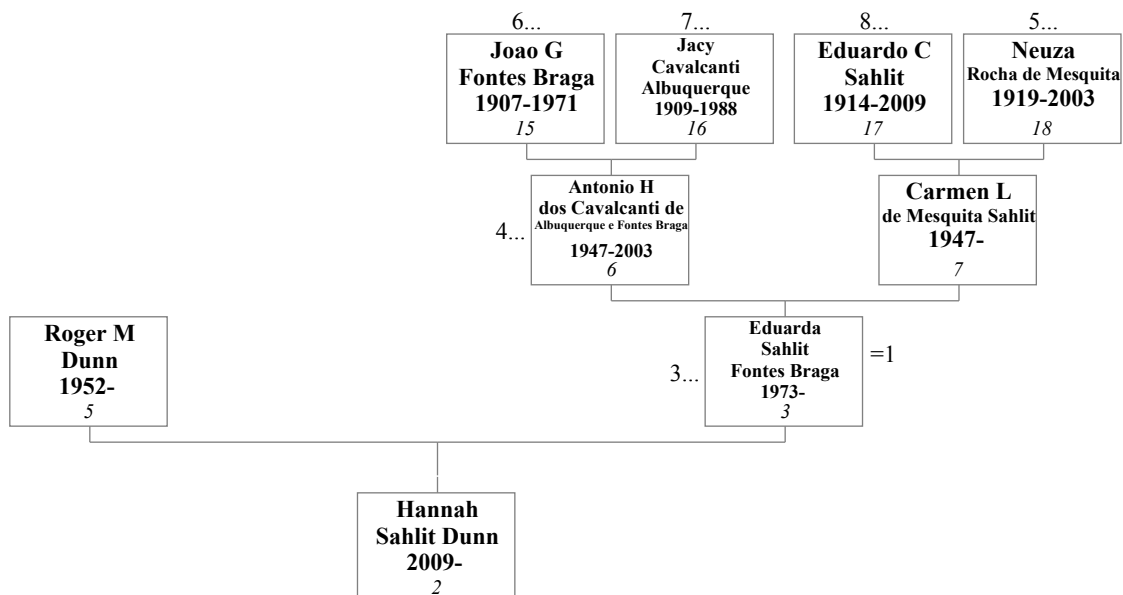

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

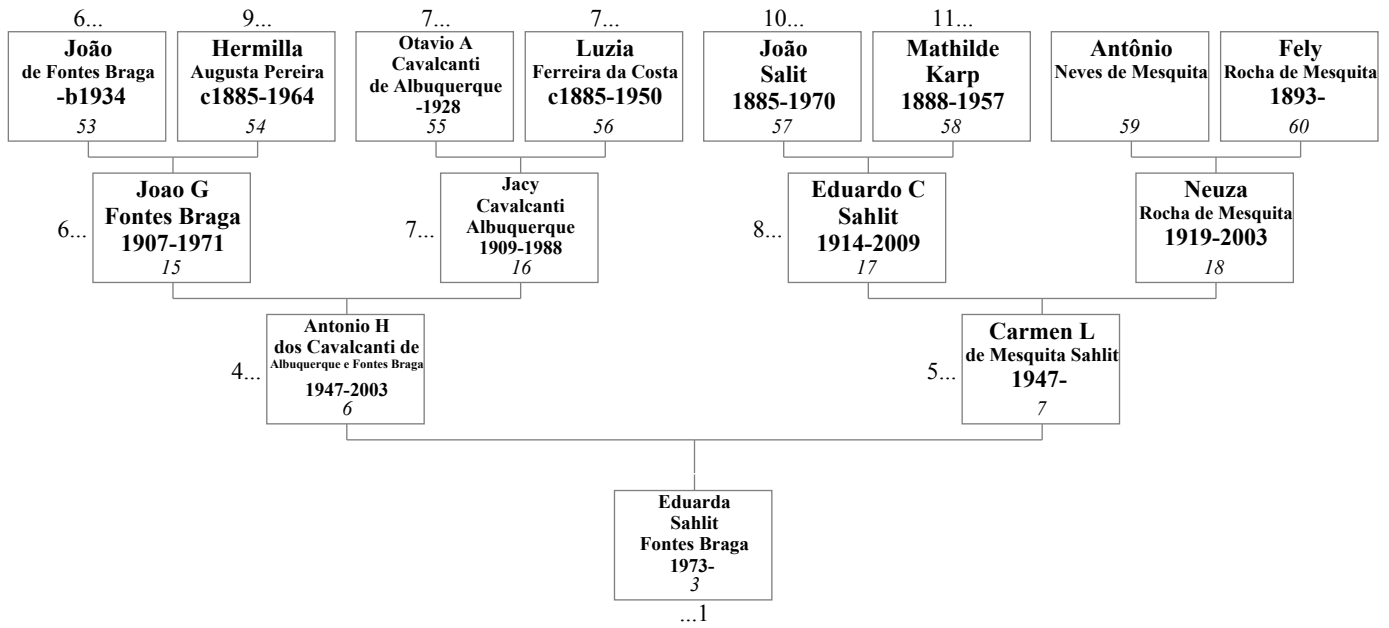

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

In cases of adopted (or fostered) children, the parental connection is shown with a dashed line and a continuation reference number preceded by "=" is shown within the individual's box. This number references the tree in which that individual is shown with his or her natural parents.
